SCHEME OF EVALUATION & GRADING

1. Evaluation of student's performance in each course has two components (a) continuous assessment (CA). (b) End of Semester Exam (EoSE).
2. Some abbreviations are defined as DCC (Discipline Centric Course), DSE (Discipline Elective Course), AEC (Ability Enhancement Course), STC(Special Type Course), AECC(Ability Enhancement Compulsory Course), SEC (Skill Enhancement Course), GEC (Generic Elective Course), VAC(Value Added Course), DPR(Dissertation/Project/Field Study), IOJ (Internship/On Job Experience), CEE(Community Engagement Experience), SEM(Seminars) and RCC(Research Credit Course).
3. The level of a student's academic performance as the aggregate of CA and EoSE reflected by letter grades on a ten-point scale as given below.

Grade	Qualitative Value	Grade Points attached
O	Outstanding	10
A+	Excellent	9
A	Very Good	8
B+	Good	7
B	Above Average	6
C	Average	5
P	Pass	4
F	Fail	0
U	Unfair Means	0
W	Withdraw	0
X	Absent	0

Relative Grading System

Grade	Grade Definition	Marks Range
O	Outstanding	90%-100%
A+	Excellent	80%-89.99%
A	Very Good	70%-79.99%
B+	Good	60%-69.99%
B	Above Average	50%-59.99%
C	Average	45%-49.99%
P	Below Average/Pass	40%-44.99%
F	Fail	Less than 40%

MINIMUM ACADEMIC REQUIREMENTS

1. The student must score a minimum Grade P in each course unit.
2. The minimum passing SGPA for each semester is 4.0
3. The student should secure a minimum overall Cumulative Grade point Average (CGPA) of 4.0 at the end of final semester.

Computation of SGPA and CGPA:

- i. The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the number of credits of all the courses undergone by a student, i.e. $SGPA(S_i) = \sum(C_i \times P_i) / \sum C_i$. Where S_i is the SGPA of i th semester and C_i is the total number of credits in that semester.
- ii. The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all semesters of a program. i.e. $CGPA = ((C_1 \times P_1) + (C_2 \times P_2) + \dots + (C_n \times P_n)) / (C_1 + C_2 + \dots + C_n)$ Where P_i is the SGPA of the semester and C_i is the total number of credits in that semester.
- iii. The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

Qualifying for Next Semester

1. A student acquiring minimum of 40% in overall of the CA is eligible in individual semester for EoSE.
2. A student who does not pass the examination (CCA+ESE) in any course (s) (or due to some reason as he/she not able to appear in the ESE, other conditions being fulfilled and so is considered as Fail), shall be permitted to appear in such failed course (s) in the subsequent ESE to be held in the following December or May or when the course is offered next as the case may be.
3. A student who fails in one or more papers in a semester shall get three more chances to complete the same; if he/she fails to complete the same within the prescribed time i.e. three additional chances for each paper, the student is ineligible for the program in which he/she is admitted.

Conversion of CGPA to Percentage

1. To convert CGPA to Percentage the CGPA multiply by ten. Final Percentage = Cumulative CGPA X 10

Ordinance – 384

There will be no supplementary/due paper/special examination for any course. The candidates can improve performance in the subsequent EoSE and performance in that appearance will overwrite earlier performance. Student will have to prepare on his own for improvement. Improvement in Continuous Assessment will not be permitted

Note: For remaining instructions candidates are advised to see relevant Rules, Regulations and Ordinances of the University.
